PROFILE

Enterprise architect and digital transformation leader with extensive progressive experience spanning solution architecture, business analysis, project management, and technical delivery. Currently shaping solution architecture at Ofgem, the UK's independent energy regulator, designing secure, scalable infrastructure serving 3M+ users across 28M+ households. Architect of record on 18 projects since 2021. Published researcher and IEEE Senior Member. MBA-qualified with deep expertise in TOGAF, ArchiMate, Azure, and UK Government security frameworks. People-oriented leader who values collaborative, respectful working environments.

EXPERIENCE

Senior Solutions Architect

Ofgem — Office of Gas and Electricity Markets

Aug 2021 – Present

Grade 2A · London · DDSS Directorate

- Architect of record on 18 projects: Synapse data platform replacement, AI social listening, DWP-Ofgem SFTE secure file transfer, Power BI external sharing/publish-to-web, Vivup benefits, 8x8/Crezovi telephony, Digital/Hybrid Mail, and Castellan business continuity.
- Designed HLD/LLD architectures to ArchiMate standard through TDA governance to production. Led technical evaluations, SSO integration, security assurance, and vendor due diligence across multiple procurement cycles.
- Delivered end-to-end business analysis (2021–24): software request standardisation, SharePoint Online migration, Teams provisioning automation, service catalogue redesign, intranet rebuild, and cross-directorate stakeholder coordination.
- Contributed AI governance, data ethics assessments, and architectural input to procurement across £150M+ programme budgets. Platforms maintained to 99.95% uptime reliability.

Technologist / IT Consultant

Self-employed

Jul 2020 – Aug 2021

Technology consultancy, advanced cybersecurity training, process optimisation, and equipment mapping for Apple Maps.

Project Manager — IT

Nelson Mandela Children's Hospital

Jun 2019 – Jul 2020

Managed healthcare IT project delivery across critical hospital infrastructure: scheduling, risk, change management, procurement, and vendor oversight.

Business Analyst

DVT (placed at Telkom SA)

Aug 2015 – May 2019

Delivered solutions for PwC, Vodacom, and Multichoice. User workflows, story maps, innovation onboarding, and client relationship management.

Earlier Career

Progressive roles: Technical Support → Systems Engineer → IT Coordinator → BA → PM → Senior SA. Across Denel (defence), ITV (broadcast), 3Par/HP (storage), Mweb (telecoms), Academy of Science (Canberra). UK, South Africa, Australia.
